Work Experience

LYMPHOMAP Inc.

Sr. Frontend Software Engineer

Remote, India

Apr 2019 – Present

- Developed and architected scalable single-page applications (SPAs) leveraging Vue.js, Nuxt.js, and modern build tooling.
- Built low-latency real-time communication channels and live virtual data streaming using WebSocket and WebRTC integrations.
- Spearheaded complete portal modernization and migration from Vue 2 to Vue 3 with Vite, optimizing development builds by over 40%.
- Collaborated with backend developers and UI/UX designers to translate complex oncology research workflows into reusable component libraries.
- Maintained an optimized, clean codebase ensuring strict mobile responsiveness and zero layout shift across viewports.

Hiteshi Infotech Pvt. Ltd.

Front End Developer

Indore, Madhya Pradesh, India

Feb 2018 – Mar 2019

- Transformed complex UI/UX designs into responsive web applications using Vue.js, AngularJS, and WordPress.
- Developed dynamic client interfaces utilizing core JavaScript (ES6+), HTML5, and CSS3 with cross-browser fidelity.
- Integrated RESTful API services and ensured strict mobile-first viewport stability.

Lemosys Infotech Pvt. Ltd.

Front End Developer

Indore, Madhya Pradesh, India

Mar 2015 – Jan 2018

- Designed and developed responsive, high-performance web applications and custom WordPress themes.
- Built dynamic client components with HTML5, CSS3, JavaScript, jQuery, Bootstrap, and early-stage Vue.js.
- Collaborated across multi-disciplinary agile teams to deploy pixel-perfect visual layouts.

Projects

Lymphomap Portal

AI Oncology Research & Virtual Hospital Ecosystem

Vue 3, Vite, WebRTC, WebSockets

Live: lymphomap.ai

- Engineered an AI/ML-driven cloud digital health platform and virtual hospital dedicated to advanced cancer research and collaborative treatments.
- Integrated real-time WebRTC channels and WebSocket streaming pipelines for virtual laboratories and clinical consult rooms.

LBIL – The Digital Front Door

Clinical Consult Hospital Network

Vue.js, Vite, WebSockets, REST APIs

Live: lbil.ai

- Globally networked cloud hospital delivering telemedicine consultations, Virtual OPD, Virtual ICU telemetry, and encrypted EMR portals.

Oddvega & Quizzort

EdTech & Gamification Platforms

Vue.js, Vuex, Bootstrap, REST APIs

oddvega.com | quizzort.com

- Engineered dynamic quiz generation builders, balance tracking dashboards, and gamified reward systems with centralized Vuex state management.

Technical Skills

Strongest Areas	Single Page Applications (SPA), Real-time Telemetry, Component Architecture
Frameworks & Libs	Vue.js (Vue 2/3 Composition API), Nuxt.js, Pinia, Vuex, JavaScript (ES6+), jQuery, AngularJS
UI & Styling	HTML5, CSS3, SASS/SCSS, Bootstrap (3/4), Responsive Web Design, Adobe Photoshop CS6
Tools & Workflows	Vite, Git, Webpack, Postman, Visual Studio, WordPress
APIs & Protocols	RESTful APIs, WebSockets (Socket.io), WebRTC, GraphQL, PayPal SDK
Databases	MySQL

Education

Virtual Voyage	Indore, India
Multimedia Diploma	Graduated: 2015
